

FIRST TIME SETUP

Please follow these instructions during your first time setup to ensure a proper installation. You can also find a video of this on our website that will not only walk you through how to set it up but also how to bookmark everything you like to the favorites

1. Insert two AAA batteries into the remote.
2. Connect to the internet if using an ethernet cable skip to step
3. Choose SETTINGS in the upper right
4. Choose NETWORK and select WIFI
5. Turn WiFi on, select your network, & type in your password
6. Once connected hit the HOME button on the remote
7. Choose MAX in the middle of the screen and CONTINUE
8. Click the big green button that says UPDATE
9. DOWNLOAD select INSTALL and click DONE then NEXT
10. CLICK HERE TO UPDATE choose INSTALL and I AGREE
11. Once completed choose YES to launch
12. DOWNLOAD select INSTALL and click DONE then NEXT
13. Click CONTINUE then ALLOW for access
14. Be patient and wait 60 seconds for everything to load

If you want to learn more tips and tricks and where to find your movies, local channels, series on demand, streaming services, and sports packages watch the video on our website for the full tutorial. Once you have setup your box we want you to LIKE our Facebook page so you can stay current with new updates and any new information.
